Jeff Mulkin

Software Engineer

(530) 906-3930 | jmulkindev@gmail.com | [Website](#) | [LinkedIn](#) | [Github](#)

TECHNOLOGIES AND LANGUAGES

JavaScript | TypeScript | React | Next.js | HTML5 | CSS3/SCSS | Node.js
Express.js | Mongo db | Git | Photoshop | REST API | PHP | MySQL | Tailwind

EXPERIENCE

Executive Advantage Group, Inc. | Portland, OR (Remote)   Apr 2022 - Present
Front End Engineer
- Designed and developed a new company website using React, JavaScript, and Tailwind CSS, enhancing user experience and modernizing the company's online presence.
- Streamlined executive recruitment website creation with JavaScript and CSS/SASS, reducing search turnaround times by 75%.
- Developed an automated Python workflow to process over 100,000 CSV rows daily from lead-generating websites, increasing leads by 70% and doubling daily recruitment email output.
- Created HTML and CSS email templates for a cold emailing service, enhancing candidate engagement and response rates.

CalPro Research, LLC | Rocklin, CA (Remote)   Jan 2019 - May 2020
Full Stack Engineer
- Led the migration of an ASP .NET project to the LAMP stack, enhancing runtime performance for clients, enabling support for future customizable modules, and enhancing code readability.
- Designed and implemented reusable UI components with HTML, CSS, and JavaScript, streamlining the development process and enhancing user interface consistency.
- Halved the runtime of the survey generator from 8 to 4 seconds by optimizing the codebase in PHP, JavaScript, and MySQL.

Entegrity Multimedia | Sacramento, CA (Hybrid)   Dec 2014 - Aug 2017
Full Stack Engineer (Apprentice)
- Developed websites and custom WordPress themes for over 10 clients using the LAMP stack (Linux, Apache, MySQL, PHP).
- Integrated the Google Maps API with JavaScript in eCommerce websites to showcase product locations.
- Implemented high-quality web designs utilizing Bootstrap, JavaScript, and jQuery.

EDUCATION

Front End Engineering Fellow | Formation   Jan 2023 - Present

Associate of Science in Computer Science (In-Progress) | Sierra College   Aug 2014 - Jun 2016
